Diversity

1. Introduction

Diversity encompasses acceptance and respect. It's an understanding that each individual is unique and includes recognition of individual differences. A diverse workforce is one that recognises and embraces the diverse contributions that people bring to the organisation through their individual backgrounds, experiences, and perspectives. Diversity refers to all of the characteristics that make individuals different to each other such as gender, age, ethnicity, cultural background and more.

2. Diversity at TechnologyOne

At TechnologyOne we hire and develop great people and believe a diverse workforce is one of the reasons we are so successful. Our practices are committed to equality of gender, ethnicity, religious beliefs, age and social demographic. We value this diversity and recognise the individual contribution our people can make and the opportunity for innovation such diversity brings. We believe that we will achieve greater success by providing our people with an environment that respects the dignity of every individual, fosters trust, and allows every person the opportunity to realise their full potential.

TechnologyOne is committed to providing an inclusive workplace and our commitment extends to our interactions with customer and suppliers.
